

Takeaways of WS 5: Religious orders

Allow the marginalised to be involved: free their creativity - trust in the potential of the people > yes, we can/ they can

religious congregations should not keep on warning against technical devices but rather discuss more about how to use it to spread the good news and promote our advocacies.

Sometimes the congregation must have a lot of creativity to go out and speak loud about topics to integrate all peoples. The members of the congregations stand and live directly wiith the peoples
